

# SHIVAM GUPTA

Software Developer | Full Stack Developer | Java | MERN Stack  
7054467583 | shivamg727583@gmail.com | Bhopal, Madhya Pradesh, India  
[Portfolio](#) | [LinkedIn](#) | [GitHub](#) | [LeetCode](#)

## SUMMARY

Software Developer with hands-on experience building and deploying full-stack web applications using React.js, Node.js, Express.js, Java, and SQL/NoSQL databases. Proficient in developing RESTful APIs, authentication systems, and scalable backend services through internships and production-grade projects, with a strong foundation in Data Structures, Algorithms, OOP, DBMS, and Software Engineering principles.

## TECHNICAL SKILLS

- **Programming Languages:** Java, JavaScript (ES6+), TypeScript, SQL
- **Frontend:** React.js, HTML5, CSS3, Tailwind CSS, Bootstrap
- **Backend:** Node.js, Express.js, RESTful APIs, JWT Authentication
- **Databases:** MongoDB, PostgreSQL, MySQL
- **Developer Tools:** Git, GitHub, Postman, Docker, VS Code
- **Cloud & Deployment:** AWS (EC2, S3 - Fundamentals), Render, Vercel
- **Core Computer Science:** Data Structures & Algorithms, Object-Oriented Programming, DBMS, Operating Systems, Computer Networks

## EXPERIENCE

- **Full Stack Developer Intern** Remote | Ho Chi Minh City, Vietnam  
Nextchain Co. Ltd. Jul 2025 – Sep 2025
  - Developed and maintained RESTful APIs using Node.js, Express.js, and PostgreSQL for scalable backend services.
  - Integrated React.js frontend components with backend APIs, enhancing application responsiveness and user experience.
  - Collaborated within a distributed development team using Git-based workflows to implement and deliver production-ready features.
  - Optimized SQL queries and backend business logic, improving API response time and overall application performance.
  - Performed debugging, testing, and issue resolution to ensure application reliability and maintainability.
- **Full Stack Developer** Remote | Bengaluru, India  
InternOrbit (Startup Collaboration) Jan 2026 – Feb 2026
  - Designed and developed a full-stack job portal using React.js, Node.js, Express.js, and MongoDB.
  - Implemented secure user authentication and authorization workflows using JWT-based authentication.
  - Designed optimized database schemas and integrated backend APIs for efficient data management.
  - Enhanced application performance through backend optimization and efficient API handling.

## PROJECTS

- **Connexa – Real-Time Social Media Platform** GitHub | Live  
MERN Stack, Socket.io, JWT, MongoDB
  - Built a full-stack social media platform supporting user authentication, post creation, likes, comments, and profile management.
  - Implemented real-time messaging and notification services using Socket.io for seamless user interaction.
  - Designed and integrated RESTful APIs with secure JWT-based authentication and MongoDB data storage.
  - Deployed and maintained the application on Render with integrated frontend-backend deployment.
- **E-Learning Management System** GitHub | Live  
MERN Stack, JWT, MongoDB
  - Developed a role-based Learning Management System supporting Admin, Instructor, and Student workflows.
  - Implemented authentication, course management, and protected routes using JWT-based authorization.
  - Built reusable React.js components and integrated backend APIs to deliver a responsive user experience.
  - Designed scalable backend architecture and optimized API interactions through efficient database operations.

## EDUCATION

- **Sagar Institute of Research and Technology** Bhopal, Madhya Pradesh  
Bachelor of Technology (B.Tech), Computer Science and Engineering 2022 – 2026
- CGPA: 7.93/10

## ACHIEVEMENTS

- Solved 300+ Data Structures and Algorithms problems across LeetCode and other coding platforms.
- Qualified TCS HackQuest Season 10 among nationwide participants.
- Built and deployed multiple production-ready full-stack web applications with live cloud deployments.
